

Reason for Withdrawal

The main reason why I would want to drop CSC 130 is due to inadequate academic preparation. I realized throughout the time I was in the course that there was a lot I did not know and figured it would be wise for me to return when I am ready. I would like to develop myself more before returning and there are many things I now know that I would like to teach myself over the winter, which I feel could help me greatly in this course. Again, I am sorry for this inconvenience. Thank you for your understanding.
