## What are your key learnings from the Seminar?

(Need to be completed in at least 100 words in order to get credit)

One new thing I learned from this seminar was how to handle writing a resume, especially if you do not have a lot of experience. I did not know that this was not too big of an issue so long as you emphasize your education and other extracurricular activities like clubs and volunteering experiences. One thing I also was not sure about before this seminar was listing work experiences that are not related to the jobs that I am interested in or intend to apply for. According to the presenter, any experience is good experience, as it may show that you can handle things like time management, working with others, customer service, and so on. Another thing I learned about, which came from the slides presented in class, is action verbs. This was something I completely did not know about and something I did not consider as important when it came to writing my resume.

## How can this session be improved? (write in the space below)

I don't know if this is a possibility, but I was wondering if it would be possible for the presentation slides to be posted sometime before the presentation. That way, we can read the slides before class and ask more intelligent questions during the presentation.
